EDF Energies Nouvelles is raising its stake in Fotosolar

EDF Energies Nouvelles is raising its interest in Fotosolar, a Spanish company specialising in solar energy, from 50% to 90%. This increase in Fotosolar's capital is part of the Group's policy of expanding actively in the photovoltaic segment.

Founded in 2004, Fotosolar is active in the development, construction and maintenance of ground- and roof-based photovoltaic power plants. The company, with already strong local positions, has completed several solar farms in Spain and a project portfolio of several megawatts.

The Group initially acquired a 45.5% shareholding in Fotosolar in 2006, subsequently increasing its stake to 50% in early 2008. This transaction illustrates EDF Energies Nouvelles' determination to step up the pace of its development in solar energy and to capitalise on the intra-Group synergies.

About EDF Energies Nouvelles

Founded in 1990, EDF Energies Nouvelles is a world-class player in the green electricity generation market, with gross installed capacity of 1,443 MW worldwide at 31 December 2007, plus 1,100 MW in gross capacity under construction. With a presence in nine European countries and in the United States, EDF Energies Nouvelles operates in four renewable energy segments (wind, solar, biomass and hydro). Wind energy currently accounts for more than 80% of its installed capacity. With its unique profile as an integrated operator, EDF Energies Nouvelles, which posted 2007 revenues of €560 million has a presence spanning the entire value chain, from development and construction through to production and operations & maintenance. The Group also pursues the development and sale of structured assets, which consists primarily in selling renewable energy generating assets to individuals or to energy services companies.

EDF Energies Nouvelles is a 50%-owned subsidiary of the EDF group. Since 28 November 2006, EDF Energies Nouvelles has been listed in Compartment A of Eurolist by Euronext Paris (code: EEN, ISIN code: FR0010400143). www.edf-energies-nouvelles.com
